

3 FREE FRONTIER AI MODELS

China just open-sourced three frontier models. All free, all open weights, all verified live on Hugging Face this week. Your agent brain for \$0.

- 01

KIMI K2.7 – THE CODER

1.1T PARAMS

Moonshot's newest open model. Runs coding agents for hours without losing the plot. 757k downloads. huggingface.co/moonshotai
- 02

GLM 5.2 – THE AGENT BRAIN

MIT LICENSE

Z.ai's 753B model, built for long-horizon agent tasks. MIT licensed: use it commercially, no strings. 3.2M downloads. huggingface.co/zai-org
- 03

MINIMAX M3 – THE LIBRARY

1M CONTEXT

A million-token context window on sparse attention: it reads your whole codebase or a small library at once. huggingface.co/MiniMaxAI

TRY ONE NOW • COPY PASTE INTO CLAUDE

```
> Set up an OpenRouter account and route my agent's
bulk work
> to a free open model (Kimi K2.7 / GLM 5.2 / MiniMax
M3),
> keeping Claude for the hard reasoning steps.
```

TIP 01

Free means open weights:
run them via OpenRouter

TIP 02

Route bulk agent work to
free models, keep your

TIP 03

My full agent setup with
model routing lives inside

WANT MY WHOLE AGENT
SETUP?

The exact routing + weekly system
drops, inside AI Creative OS.
